## FIAMMA CARAVANSTORE AWNINGS

A lightweight bag awning with a manual rollout operation. Specifically made for caravans and minivans, the Caravanstore Awning has an extra wide roller tube which can be rewound without the fabric wrinkling. It takes seconds to roll it out and since the legs are inside the roller tube, they too are quick and easy to position. The legs are hinged and telescopic so they can't fall out and get lost. The design of the Caravanstore Awning has been improved recently and it now comes with a Central Rafter fixing kit to ensure a centre rafter is installed safely (from Caravanstore 255). The lead bar now also features a second track so that a sunscreen or LED lights can be utilised.

### Easy Installation

Slides easily into existing sail track. Once unrolled, simply pull out the legs and position accordingly. When it's time to pack up, the roller tube can be rolled up either way.

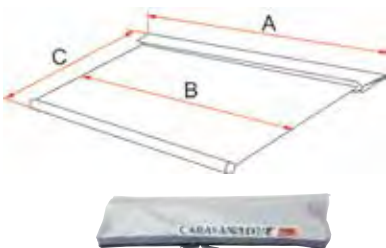

### Colours and Materials

Housed in a soft bag with a self-lubricating zipper that won't get stuck. The canopy is available in Royal Grey and is waterproof, rot proof and UV resistant.

## FIAMMA F35 PRO AWNINGS

Perfect for your minivan, 4x4 or even a station wagon. Housed in a light anodized aluminium case, the Fiamma F35 Pro has a manual mechanism—press the red button on the side of the casing to open and then walk backwards while unrolling the awning. The drop down legs are housed inside the roller tube.

Adapters are available to help with installation onto the roof racks of your vehicle. The fabric is printed on both sides on a UV-resistant and waterproof vinyl. The F35 Pro extends up to 225. Also comes with ropes and hooks for securing to the ground. Available in royal grey colour only.

## FIAMMA F45 S AWNINGS

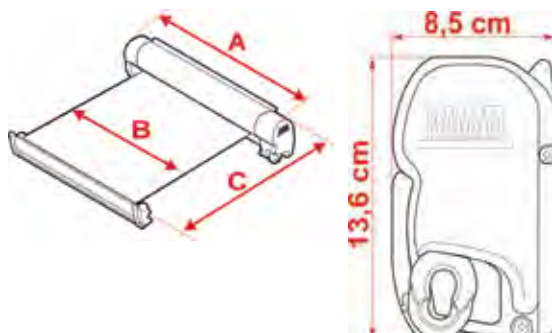

Fiamma's best selling awning has had a few cosmetic changes, with the result being a more compact and functional box awning. The lead bar now has two tracks allowing for use of a sunscreen and/ or LED lights. The F45 S range of awnings are simple to use and easy to install on the wall of your RV or horse trailer. When not in use, the F45 S takes up little space while snugly enclosed in its polar white aluminium case. It is sturdy and safe to operate, with an easy-to-hook winch loop. The canopy is available in five colours and is UV resistant, waterproof and washable. The colour is printed on both sides of the canopy.

Use the table below to help decide which F45 S awning is right for you.

**FIAMMA F45 L AWNINGS**

Perfect for larger RVs the popular F45 TiL has been improved to create the F45 L awnings, featuring an increased box size and extra larger roller tube. The F45L awning provides a large shaded area for your family to enjoy on your next holiday. Suitable for mounting onto the wall of your RV, F45 L awnings open and close by means of a crank handle and have a beautiful polar white aluminium case to compliment any RVs exterior. Silent when opening, closing and even during travel, the F45 L range is sturdy and easy to operate. Best of all, the F45 L case features two guide tracks enabling you to have a sunscreen and a front wall installed at the same time if you so choose! Available in five colours, the vinyls are printed on both sides and are UV-resistant, waterproof and washable to ensure you get quality for your money. Supplied with one Straight Centre Rafter as standard (200-04602).

## FIAMMA F65 S AWNINGS

The F65S is designed for roof installations on Fiat Ducato and Mercedes Sprinter vehicles. It fits onto the vehicle without any overhang and can be installed without drilling—simply use the optional adaptor brackets suited to the type of vehicle you own. Fiamma recommends installing an F65S 370 on Ducatos with a high roof, built after June 2006. It is easy to operate using a handle to open and close the awning. The casing is made from extruded aluminium and the canopy from UV resistant, waterproof and washable vinyl. (Brackets not included).

**200-08080****VLP VINYL REPAIR TUBE**

Great for mending pinholes, rips or tears on awnings and canvas. VLP is a clear, high strength and flexible adhesive that is suitable for use on most types of flexible vinyl surfaces. It has an air dry formula that dries clear, thus blending with coloured fabric. Typical use is on vinyl furniture, awnings, tarps, vinyl sheeting, luggage, rain gear, covers, tent floors and boots. All surfaces to be glued must be free of oil and dust: to achieve this, simply wipe the surface with alcohol and let it dry before applying VLP.

**Specifications**

**Temperature Use Range:** -10°F to 200°F (-23.3°C to 93.3°C)

**Tensile:** (ASTM D-882) 2900Psi

**200-08086****CAMCO RV AWNING REPAIR TAPE - 3" WIDE X 15' LONG**

Camco's RV Awning Repair Tape is a permanent repair for rips and punctures on your RV awning. Use it for RV, boat sails, canvas, tents, rain wear, backpacks, pop up campers and more. It has an aggressive adhesive and resists tearing in any direction. The roll is 7.6cm wide x 4.57m long.

**200-08270****COAST CURVED ROOF RAFTER (WHITE)**

Designed to give your awning canopy a gentle curve enabling rain to run off with ease. Keeping your awning canopy taut it also minimises flapping caused by wind. The Coast Curved Rafter is suitable for awnings that extend up to 8ft (243cm).

**150-00110****SPIGOT MOUNT BRACKET**

Suitable for use with steel extension poles and curved roof rafters.

**AUSSIE TRAVELLER CURVED  
ROOF RAFTERS**

Curved Roof Rafters have a dual purpose - to prevent the awning canopy from sagging, ensuring water run-off, and for keeping the awning fabric taught, reducing wind flap. Awnings that flap can cause your RV to shake or even cause damage to the awning itself. Aussie Traveller has produced two types of telescopic Curved Roof Rafters - suiting most brands of rollout awnings.

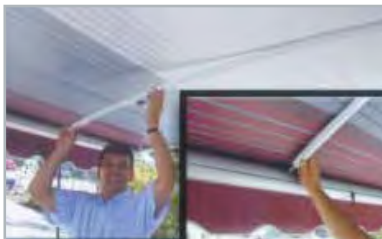

Please see the guide below to see how many rafters are recommended per awning:

Awning Size	Recommendation
11' and under	1
12' - 16'	2
17' - 20'	3
21' and over	4

### ENDUOMATS

Perfect for camping, these Australian made mats help to keep your RV cleaner. Small dirt particles, such as sand, fall through the mesh, leaving larger stones on top for easy removal. Made of a PVC welded fibre, Enduomats are strong, durable and tough but not on the grass underneath! The mesh style fabric allows air to move beneath its surface allowing grass to breath. Non-slip and mildew resistant, the lightweight mat is easy to carry and store. Because nothing sticks to the Enduomat, minimal maintenance is required. To clean, simply shake the mat and then fold as per normal to put back into the bag. It is even UV resistant so it will maintain its colour for years.

## COAST FRONT SUNSCREENS

Coast's range of sunscreens has been redesigned resulting in a stronger and more functional sunscreen. The front and side sunscreens now feature an improved spline that won't kink over time. There are also newly added reinforcing triangles (with D-rings) that enable the sunscreen to be secured to awning legs. They are still quick and easy to fit. Once you have taken it out of the packaging, shake it out like a blanket and grab the end without the eyelets. Simply thread it through the track on your awning lead bar.

**Key Features**

- > Improved spline
- > Added reinforced triangles with D-rings
- > Hemmed edging all around prevent to prevent fraying
- > Comes with guy ropes and heavy duty 8mm steel pegs (for securing to the ground)
- > Offers extra privacy
- > Now with a huge 3yr warranty

**ARPAN5A Test Results**

- > Cover Factor: 91.0 +/- 2.5
- > UVR Block: 90.4% +/- 2.5%
- > Shade Factor: 86.6 +/- 2.9
- > Calculated Protection Factor: 11\*

*\* The Calculated Protection Factor is for the material only and does not account for the effect of indirect UVR when situated at a distance from the persons being protected.*

- > Tough reinforced D-rings
- > Hemmed edges all around to prevent fraying
- > Guy ropes and heavy duty 8mm steel pegs (for securing to the ground)
- > Comes with a huge 3 year warranty.

## CAREFREE ROLL OUT WINDOW AWNINGS

Window awnings offer an alternative to roll out awnings but still provide essential protection from the sun. Carefree have modified their window awnings to incorporate a more streamlined design. The vinyl has also been given an update to an opaque white, complementary to any RV exterior. Two types of Carefree Window Awnings are available, the SL and the SL XL. The SL window awning is suitable for windows less than 36" (91cm) in height. If your window is more than 36" in height, you will require the SL XL window awning.

## CAREFREE FIESTA ROLL OUT AWNINGS (NO ARMS)

Carefree's vinyl fabric features a superior construction with the top portion being called the Weatherguard - this protects the fabric from the sun, scrapes and exposure when the awning is rolled up. The Carefree Fiesta has long been a favourite amongst RVers, not only in the USA but here in Australia as well. It is a simple to use manual, spring loaded, rollout awning featuring a vinyl weatherguard as previously mentioned. The Fiesta is available in two finishes, Dune Stripes (this coloured on both sides) and Shale Fades (this is coloured on the top side only). Sizes vary for each colour. The 8' - 14' awnings project up to 7'3" (2.21mt), while the awnings from 15' - 21' project up to 7'9" (2.36mt).

### Fiesta Features

#### Remote and Travel Locks

These work together to ensure the Fiesta does not come undone during travel. They eliminate the need for you to stretch and fumble for the roller lock.

#### Canopy Clamps

Built onto the hardware and self storing. Canopy Clamps help to keep your awning taught and provide extra protection from the elements. Not available on arms supplied to suit poptops.

#### Heavy Duty Brackets

Solid and rugged, the awning hardware and castings are white to suit the trim of any RV.

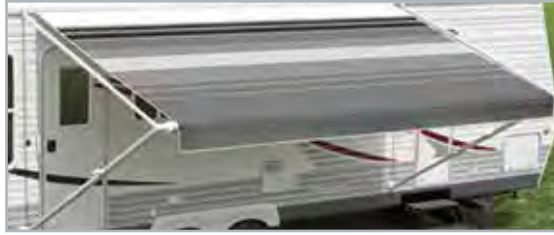

#### Single Track Slider

Located on the inside of the hardware channels, it eliminates the rafter binding during setup and storage. You get a smooth gliding motion as soon as you slide the rafters up the hardware arms

When replacing the Spring Assembly on your Carefree Fiesta (rollout) awning, take note of the following:

SPRING WIND CHART

Length of Awning	Winds with Awning Closed	Winds with Awning Open
7'11" or less	6	14
8' - 12'	5	13
12' 1" - 18'	7	15
18' 11" and longer	8	16

To wind, rotate the end plug over the top and away from the RV

To unwind, rotate the end plug over the top and toward the RV

## CAREFREE ECLIPSE AWNINGS

The Carefree Eclipse awning is yet another innovative design from these 40 year strong manufacturers. It is a 12V electric awning that extends (and retracts) at the touch of a button (usually mounted near the door of your RV). You can choose to unwind it partially or to its 2.3m full extension. As the worm-gear motor unwinds the canopy, the arms glide up the vertical track (mounted to the outside wall of your RV). The end result is a stable canopy with truss like support. To retract the Eclipse simply hold the button and the motor will roll it up tight against your RV and that's it, eliminating the need to fumble for roller locks:

### Eclipse Features

#### Unmatched Performance

Eclipse has remarkable strength and support for an automatic awning, not to mention it's stylish good looks.

#### Self Levelling

No need to level the canopy before you roll it up and the genius part is that when you do unwind it again, it will unwind to its last setting.

#### Rain-dump Feature

When your Eclipse is on a flat pitch and rain is pooling on the canopy, the gas strut will momentarily retract and dump the water.

**Adjustable Pitch**

There are 6 settings on the awning arm giving you options to maximise shelter from the sun and rain.

**200-33022****CAREFREE WHITE CURVED HARDWARE BENT TOP AND STRAIGHT LEG**

Suits most RV's with a curved roof such as Winnebagos and Renault Trafic.

**200-34150****CAREFREE SPIGOT KIT FOR CAREFREE RAFTERS**

The Spigot pin fits into the end of the Carefree Centre Rafter, which is then inserted into the awning barrel when extended.

**200-33030****CAREFREE RAFTER STANDARD**

The standard rafter has an awning support cradle and is easy to use. The end with the awning support cradle attaches to your RV wall, allowing the rafter to swing out towards the awning roller (once extended). Simply tighten the knob on the roller and use the lever to fit to the roller. You can make the canopy as tight as you desire but take care not to stress your canopy roller. Comes in polar white and suits the Carefree Fiesta range of awnings.

**200-33040****CAREFREE RAFTER WITH GROUND SUPPORT**

Has the same benefits as the standard rafter but with an additional ground support leg. This prevents the awning roller from sagging (towards the ground) once the awning has been rolled out. The ground support and roller work together to keep the awning roller straight. Comes in polar white.

**CAREFREE SUPPORT CRADLE**

Fits all roller awning brands, the awning support has a pivoting head. Once you roll up your awning, the pivoting head receives the roller and supports it, eliminating weight stress and potential bowing in the centre of your awning roller. The awning supports will not damage the awning fabric. Recommended for use on flat walls of RVs and for awning widths of 16ft or greater.

## TIPS FOR CAREFREE AWNINGS: CARE AND MAINTENANCE

### Fabric Care

- > Do not use oil-based cleaners or any granulated/abrasive type cleaners on your Carefree awning.
- > The easiest way to delay the need for a deep clean is to simply hose down the awning fabric once a month with clear water - this prevents dirt from becoming set in into the fabric.
- > When the time comes for a thorough cleaning, you can leave the fabric on the frame. For vinyl fabric, simply use a soft brush and warm water with a natural soap. Allow the fabric to air dry completely before rolling back up.

### Mildew

- > A fungus that looks like dirt.
- > Common in areas where temperature and humidity is high, mildew can become a problem.
- > Rinse fabric with clean water and allow to air dry completely before rolling back up.

### Leaking

- > On vinyl canopies, side hems and poly cords are stitched with a sewing machine.
- > The stitching may allow water to seep through - this is normal and not a warranty defect.
- > In this instance, treat the seams with a seam sealer.

### Arm Care

- > Always keep this clean to allow the arms and braces to operate smoothly.
- > Periodically wash out the arm channels with a hose to keep them clean and eliminate dirt and debris.
- > Once the arms have been cleaned and dried completely, you can spray the joints with a dry silicone lubricant.

## CAREFREE FREEDOM 12V AWNINGS

Streamlined and easy to operate, Carefree have released the Freedom 12V box awning that mounts onto the side of your RV. By utilising the button installed inside your RV, you can open and retract the awning. Whilst opening the awning, the support arms (located in the lead bar) can be unfolded once it is at a comfortable and easy-to-reach height. The Freedom's support arms are adjustable by means of flip lock controls. To retract the awning, simply fold support arms back into the lead bar and press the button; the awning case closes and locks itself, so you are ready to continue your journey. The Freedom 12V awnings are housed in an attractive white aluminium casing and are available in two canopy colours.

Use the table below to determine which Freedom 12V awning is best for you:

Awning Size	Canopy Width	Canopy Extension
Freedom 2.5m	2.4m	2m
Freedom 3m	2.8m	2.4m
Freedom 3.5m	3.3m	2.4m
Freedom 4m	3.8m	2.4m
Freedom 4.5m	4.3m	2.4m
